Schedule

2018 iACD Shanghai Annual Congress

Shanghai World Expo Exhibition & Convention Center

10/31/2018 Wednesday

08:30~	Registration
	Opening Ceremony
10:00~10:20	<i>Prof. Steve GF Shen, Prof. Qiu Wei-liu, Prof. Zhiyuan Zhang, Prof. Guangyan Yu, Prof. Jon B. Suzuki, Prf. Fuqiang Zhang</i>
Location	Lecture Hall A
13:00~14:00	Comprehensive Multidisciplinary Management of The Implant patient: A Case Series. <i>Edgar Grageda DDS MS</i>
14:00~15:00	Function and Esthetic Achievement of Biocompatible CERAMIC RESTORATIONS <i>Masahiro Kuwata, CDT</i>
15:00~17:00	Panel Discussion Interdisciplinary Cases Discussion <i>Dr. Haiping Lu, Dr. Rong-Chuan Cheng, Dr. Steven Xue, Dr. Bor-Jia Kuo</i>
Location	Lecture Hall B
13:00 ~ 17:00	<i>New Speakers Podium-support by NYU Dental</i> <i>Moderators: Prof. Peter M. Loomer / Prof. Shohei Kasugai / Prof. Yonbo Gao</i> The list of new speakers will be list on the website after August 15th, 2018
location	Meeting room A
13:00 ~ 17:00	iDHA Dental Hygiene Program <i>Moderators: Pro. Jon Suzuki & Dr. Suguro Tsujimura</i> The list of new speakers will be list on the website after July 15th, 2018

10/31/2018 Wednesday

	Location: Exhibition Lecture Hall
Location	Meeting Room B
13:00~17:00	Dr. Wallace Hands-On Support by Dentium / DASK
	Maxillary sinus elevation <p>The speaker has pioneered both research and clinical innovation in this field for over 25 years. The goal of the course will be to present the most current scientific evidence and clinical practice advances so as to make you comfortable in your choice of therapeutic approach. Dr. Wallace will focus on lateral window techniques but also present techniques for the transcrestal approach. Topics to be presented will include: 1) Sinus anatomy from the perspective of the surgeon 2) Multiple surgical techniques with video illustration 3) Complication avoidance and treatment with an algorithm for treating sinus infections 4) Hands-on with Dentium DASK and Piezoelectric surgery.</p>
Location	Meeting Room C
13:00~17:00	Dr. Paul Yu Hands-On Support by EBI
	New Split Ridge Technique for Horizontal Ridge Augmentation <p>Implant therapy has become an integral treatment modality for replacing missing teeth. When a tooth is extracted in the posterior mandible, horizontal ridge resorption may occur up to 50% within 6 months, leaving inadequate bone to enable stable implant placement. The ridge width can be increased via bone augmentation procedures. The morphology of the defect at the implant site is a critical factor for the success of the selected augmentation procedure. A variety of techniques for horizontal bone augmentation have been developed to overcome challenging atrophic ridges in the posterior mandible. These may include block grafts, guided bone regeneration (GBR), distraction osteogenesis or ridge splitting. These techniques have evolved over time but have yet to achieve highly predictable outcomes. This report introduces the concepts and technique of a new custom split crest technique for horizontal ridge augmentation in the atrophic posterior mandible.</p>

11/01/2018 Thursday

Location *Shrarton Grand Shanghai Pudong Hotel & Residences Grand Ball Room 2F*

08:30~	Registration
09:00~09:30	Handing-over Ceremony
Morning Session	<i>Moderator: Prof. Jon B. Suzuki & Prof. Steve GF Shen</i>
09:30~10:30	Maxillary Sinus Elevation: The future is now <i>Stephen S. Wallace, DDS</i>
10:30~11:30	Tooth Retention Through Endodontic and Periodontal Treatments or Tooth Replacement Using Dental Implants or Fixed Partial Dentures: Which Treatment Is Best? <i>Charles J. Goodacre, DDS, MSD</i>
11:30~12:30	Black and White, the art of color and movement in aesthetic dentistry <i>Marlon Becerra, DDS</i>
12:30~13:30	Lunch Break
Afternoon Session	<i>Moderator: Prof. Hirofumi Kido & Dr. Yukinobu Fukuoka</i>
13:30~14:30	Maxillary sinus elevation: a known and unknown world <i>Yucheng Su, DDS, PhD</i>
14:30~15:00	Coffee Break
15:00~15:30	New Concept of The Future Oral Health Treatment <i>Kenzo Nishiyama, DDS</i>
15:30~16:00	Practicing comprehensive clinical dentistry -Quest for the reconstruction of esthetic and occlusal function <i>Hideaki Ueda, DDS, PhD</i>
16:00~16:30	Dental Health and Mental Health - the Hidden Link <i>Hideo Kawahara, DDS</i>
16:30 ~17:00	Multidisciplinary Approaches to Asymmetric Jaw Deformities <i>Steve GF Shen, DDS, MD</i>

11/02/2018 Friday

Location *Shraton Grand Shanghai Pudong Hotel & Residences Grand Ball Room 2F*

Morning Session		<i>Moderator: Prof. P.D. Miller & Prof. Jon B. Suzuki</i>	
09:00~10:00	Paradigm Shift in the Management of the Atrophic Posterior Mandible- Innovative Team Approaches to Comprehensive Dentistry	<i>Dr. Yung Cheng Paul Yu</i>	
10:30~11:30	The Periodontal Biotypes”- Their Impact on Implant Treatment in the Esthetic Zone	<i>Arnold Weisgold, DDS</i>	
11:30~12:30	What Went Wrong? Complications, Errors, and how to solve the problem	<i>Edwin Scher, BDS, LDS RCS Eng. 英国牙科种植学协会的创始成员和前会长</i>	
12:30~13:30	Lunch Break		
<i>Afternoon Session Moderator: Dr. Steven Xue & Dr. Bor-Jia Kuo</i>			
13:30~14:30	Having a timeline: "An Interdisciplinary approach to alignment of the dentition in combination with surgical and prosthetic reconstruction	<i>Paul P. Chang, DDS, MS & Doug Jensen, DDS</i>	
14:30~15:00	Coffee Break		
15:00~16:00	Interdisciplinary management of Complex Implant Treatment	<i>Msao Yamazaki, DDS</i>	
16:00~17:00	Zygomatic Implants - Guided or Free Hand?	<i>Dr. James Chow, DDS, MD</i>	
17:00 ~ 18:00	<p style="text-align: center;">AWARD CEREMONY</p> <p>New iACD board members, Diplomas, Researchers, Researchers, Instructors Award Ceremony</p>
